**Professional objective statement:**

In my future profession I look for a stimulating, instructive and constructive, and challenging position. A work environment where I can both give from my own experiences, and obtain experiences from my co-workers and company.

The thing I find most important in a work environment is that you give service to your customers and your co-workers. That you take responsibility for your work and duties, that you don't try to blame things on others. Instead you try to solve the problem.

My interests are quite a few; graphic design, multimedia productions, web design/programming, writing, photography, art and more. I value responsibility, achievements, possibilities, challenge, influence, independence, open-minded people. I have no problems working in a team or independently. I have done both and am just as creative in both environments.

**Long term professional objective statement:**

I am looking for a position and a work environment where I can make my experience wider and deeper. A company where I can grow as a person and thanks to all of this give experience, and progress back to the company I am working for.

**Personal description:****Who am I?:**

I am a guy who loves life with a very broad area of interest. I stand steady with both feet on the ground. This comes, a great deal, from the inspiration I find in people and nature. Specially from the ocean.

I believe I am humorous, kind (who no one wants to be called?), loyal, flexible, open minded in most cases, but a little shy sometimes (when it comes to singing for example), a good friend. I have never had any problems in getting friends, which has given me cramp in my fingers from writing them all. I have friends all over the world. My upbringing and experience has made me into who I am; harmonic, calm, independent, happy, and curious.

**Hobbies/Interests:**

Sailing, Free diving, Skiing, Windsurfing, hiking, nature and animals, people and its different cultures.

## PERSONAL INFORMATION

**First name:** Erik  
**Last name:** Ottengren  
**Date of birth:** 650315
